

XACTLY CONNECT

101: Everything You Need to Know

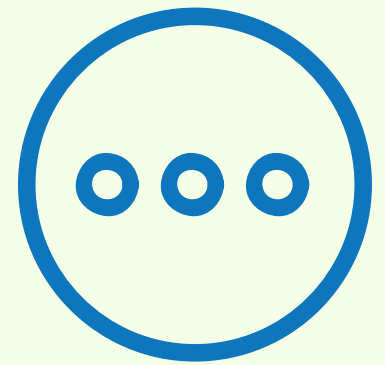

WHAT IS CONNECT?

Xactly Connect is an ETL web service technology that compliments or replaces DELTA services and immediately gives clients attractive options for building and supporting new data management processes related to Xactly Incent. Connect provides the avenue for seamless integration and visibility between Xactly Incent and other products, allowing for full transparency and ownership.

WHAT DOES IT DO?

With available resources, Connect gives you instant access without having to wait in a queue. Connect uses standard developer language like SQL, ODBC and Rest API.

WHAT ARE THE BENEFITS?

1. **Visibility:** Full transparency and control
2. **Cost Flexibility:** More delivery options
3. **Speed to Market:** No dependencies
